### ***Welcome to the new AMMA Quarterly Magazine.***

*The Australasian Motor Museums Association (AMMA) has been established to help promote the collection, preservation and promotion of motor vehicles and related memorabilia for public display, educational and research purposes.*

*Through this magazine, we now have a platform for the AMMA to bring news and articles of interest to the membership and other enthusiasts who share the passion for the ongoing preservation of our automotive heritage.*

*Our aim is to provide content that supports the key elements of our existence and communicate important current and historical information to assist in the preservation of our past for future generations.*

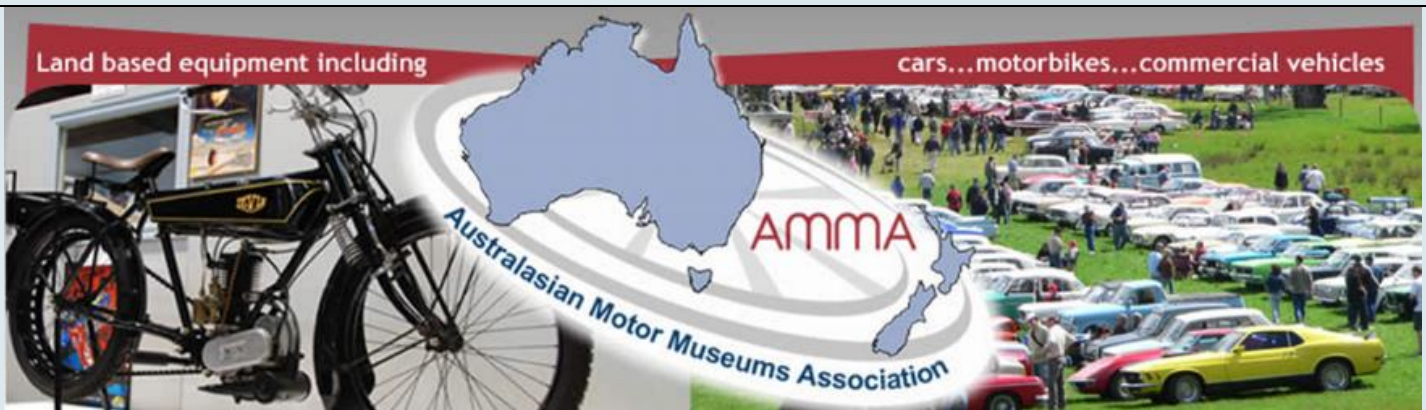

-----  
*The coming year will be punctuated by disruption amidst the Global response to the COVID-19 Pandemic.*

The AMMA is here to assist in preparing and continually updating the regulatory responses as required to comply with the safe management of Museum staff and patrons alike.

The AMMA Executive will assist where possible to connect you with the relevant authorities as we learn to live within the constraints placed upon us.

-----  
*Once again welcome to the new voice of the AMMA and I look forward to contributions and requests for content that you firmly believe is important to share.*

## TANK RIDE

<https://tankride.com.au/>

*Be blown away by a completely amazing tank experience!*

We have several vehicles that are the only ones in the country, some that are one of only a handful and one that is the last existing example of its kind.

The staff at Tank Ride all share an interest in military machinery with Phil, Rodger, and Tony all having over 20 years each of actual army service. Tim, the owner enjoys collecting, restoring, and maintaining but mostly driving his ever-increasing display of vehicles.

We are located in the beautiful, rich countryside near the healthy Albert River and loads of scenic opportunities close by.

We are close to other areas of interest; [Tamborine Mountain](#), Gold Coast, and Brisbane. It feels like the country while not being far from the city.

---

As you may have already guessed Tim is slightly eccentric so if you can dream something up that you would love to do with this Tank chances are he will at least consider it! We have been approached for things like shows and events including car crushing etc to movie and photo shoot interest as well.

There are very few tanks around that are this accessible and we appreciate that people may want to have a slightly different experience so please if this is you and you think you can afford the cost of hire and transportation to your site of choice then by all means contact us and we will see what we can do!
