

Newsletter Spring 2026

Hi Members,

I feel Spring is in the air, and I have some news for all to share.

Firstly, congratulations to the Maffra Shed on reopening their museum after lengthy renovations including a new roof, which was asbestos. A new beginning for everyone concerned.

Secondly, please find attached information for the upcoming Birdwood museum rally which has been a significant event for South Australia for many years.

Thirdly, I am pleased to know that nine AMMA members are making the trek to the World Forum conference in France in October. For those intending to go, registration is now available, and the early bird discount will apply to the end of August.

Also, just to alert everyone about this year's AGM. As several members will be overseas, the board has decided to postpone the AGM until November, after everyone has

returned. We will send out a confirmation date and time as soon as possible.

Although we did not receive a huge response about our intended get together in Canberra in March 2027, at this point in time, it will go ahead, and I am hoping that it will grow and become a regular event. There will be more information about this in the coming months. With an election looming, it may be a good idea to get some politicians involved. There are a lot of votes in historical vehicle owners.

That's all for now.

Yours faithfully, your ageing Chairman.

Colin Kiel
